Welcome to Carron

With our great range of
innovatively designed
baths and accessories,
get ready to take the
year by storm with
Carron Bathrooms.

At Carron, we're more than ready for 2022. This year is a time for growth in the bathroom industry, and Carron is the perfect partner to help you achieve your goals.

We're prepared to deliver quickly and efficiently to you and your customers with increased stock levels and a newly improved distribution network. Meaning we can get our wide range of baths and accessories to you fast.

All prices in this brochure are guaranteed, so you can look ahead confidently, knowing Carron has the range and service to keep your customers happy.

The strength of Carronite

Carronite™ was created by Carron Bathrooms to provide a higher level of comfort, luxury and peace of mind for our customers.

All Carron Bathrooms baths are hand finished to our exacting standards but only Carronite™ baths, with our unique, patented, triple-layer reinforcement system come with a 30 year guarantee – proof of the confidence we have in Carronite™. Carronite™ baths are stronger and heavier than standard acrylic baths.

The additional finishing layers crafted during the Carronite™ process create a uniquely reinforced product. The added weight requires a bespoke fitting system that only adds to the stability and rigid feel of our Carronite™ baths. These elements combined help deliver the Carronite™ experience.

THE FRAME

Created specifically for the Carronite™ Baseboard, this unique frame, and foot set uses the added weight and thickness of our baths to deliver additional stability and security.

THE FINISH

Specially formulated, our unique Carronite™ finish results in increased rigidity while the density of the material allows greater heat retaining properties.

THE BASEBOARD

Custom baseboards, cut to size for each Carronite™ model, are applied by hand before the Carronite™ finish is applied.

STRONGER

It's our patented process that creates the added strength found in all Carronite™ baths. A stronger bath is a more rigid bath, resulting in a more solid experience when bathing or showering.

WARMER FOR LONGER

Due to the extra finishing layers, Carronite™ baths are able to keep water temperature levels hotter for longer. Up to thirty minutes longer in some tests.

PEACE OF MIND

We are so confident in the quality and finish of our Carronite™ baths that we give every bath a 30-year guarantee. That's because Carronite™ baths are designed to last a lifetime.

The Perfect Fit

We expand our ranges to help create products that best fit our customers' needs. The addition of our 1750 x 750 size option does just that.

When we create a new size variation in a bath model, it usually comes as the result of a client request, to fit the need of an installation or project. Sometimes these new sizes prove popular, some are less so. In the case of our recent 1750 x 750, available in Profile SE, Duo and Quantum Integra models, the popularity has been off the charts.

With other niche sizes such as 1650 x 700 and 1675 x 700 also available, we have our most popular designs available for all spaces.

Bathrooms need to be practical and reliable but that doesn't mean they need to be boring. With our unique ColourMatch service you can choose a colour, any colour, so Carron can match your bath panel to your bathroom design to help add that personal touch.

ColourMatch service available on certain models only. For further details please visit www.carronbathrooms.com

ColourMatch

There's a Carron bath for every style of bathroom. With ColourMatch, there's a colour for every style of customer.

Service

We don't just deliver baths,
we deliver an end-to-end service.

Time is money so the less of it wasted the better.
In-depth stock holding combined with our online
'Bath Finder' feature, distribution network and expert
customer service means our baths can be ready for
dispatch within 24 hours of ordering.

Made in Britain

Manufacturing isn't just our business,
it's been our passion for generations.

At Carron, we believe that full control of our manufacturing processes is essential in delivering first class products. This has always been achieved at our home in Falkirk, Stirlingshire and we feel this ethos is reflected in the Made in Britain campaign. Our brand stands alongside the campaign's, ensuring our products are hand-made, here in Britain.

C-Lenda Whirlpool Systems

The C-Lenda Whirlpool system is the most technologically advanced system available on today's market. This unique jet system has been designed by Markon in New Zealand and ensures the most comfortable bathing experience. Almost all baths in the Carron range are compatible with this whirlpool system and are made to order by our skilled technicians at our factory in Falkirk.

Showerbaths:

The best of both worlds.

When it comes to bathing and showering, Showerbaths can solve many bathroom fit-out problems. Not every bathroom can accommodate a separate shower cubicle and for busy families, especially those with small children, getting rid of the bath is not an option. This is where a Showerbath comes in. With a footprint similar to that of a standard rectangular bath and a large, dedicated showering area you can have the best of both worlds.
